Professional Expertise

Patrick joined the Cushman & Wakefield GIS and Market Analytics team in 2008. As GIS manager, Patrick is responsible for the coordination and management of GIS data, applications, projects and personnel. Patrick, in concert with the entire GIS and Market Analytics Team, ensures the department adheres to accepted GIS data standards and is equipped to leverage various GIS software platforms and geospatially enabled data sources into high-value decision analysis tools and products for commercial real estate clients.

Work Experience

Prior to joining Cushman & Wakefield, Patrick spent nine years at CB Richard Ellis in GIS, research and sales. Patrick's roles at CB Richard Ellis included retail researcher, mapping specialist, research manager and client services specialist for the Minneapolis Land Services Group. During his commercial real estate career, Patrick has been responsible for database management and implementation, client-specific research initiatives, market analysis and reporting, statistical publication efforts, personnel training, vendor contracts and budget review, as well as GIS data and mapping services.
